EDUCATION

BSc Computer Science and Artificial Intelligence 2024 - Expected May 2028

IE University | Madrid, Spain | GPA: 8.84/10

- Course honors (Matrícula de Honor): Algorithms & Data Structures (9.8/10) and Principles of Programming (9.4/10).

International Baccalaureate Diploma Graduated May 2024

H-FARM International School | Roncade, Italy | 40/45

EXPERIENCE

Research Assistant Sep 2025 - Present

IE CyPhy Life, IE University | Madrid, Spain | Part-time

- Support fellow researchers and maintain, improve and troubleshoot shared lab systems and workflows.
- Develop MOSAIC, integrating multiple projectors, robotic platforms through ROS and OptiTrack motion capture; implement spatial blending and calibration with GAMA and Python.

AI/ML Engineer Intern Jun - Sep 2026

Focoos AI | Turin, Italy · Hybrid

- Researched and fine-tuned open-source vision-language models for video understanding and built modular auto-labeling pipelines.
- Curated datasets, designed prompts and supervision strategies, and ran controlled training, evaluation and quantization experiments using reproducible GPU workflows and human-review tools.

Research Assistant Sep 2024 - Sep 2025

IE CyPhy Life, IE University | Madrid, Spain

- Developed VictorIA, a robotic arm that plays Connect Four using camera input, computer vision and game-state recognition.

Innovation Lab Intern Jan - Jun 2025

Saica Group | Madrid, Spain · Hybrid

Donation Automation Developer Mar 2023 - Feb 2025

Fondazione Dottor Sorriso | Milan, Italy

- Built Python automation to extract donor names from 1,000+ inconsistent donation records and enter donations in the foundation's existing platform.
- Combined model-assisted extraction, caching and Selenium automation, reducing manual entry by 90% and saving an estimated 40 hours of administrative work per month.

SELECTED ENGINEERING PROJECTS

Noty
2026

Swift · SwiftUI · AppKit · SQLite

- Developed a native macOS note application using Swift, SwiftUI and AppKit, with SQLite storage and notes attached to application windows.
- Separated focus, window positioning and visibility, with recoverable editing and explicit privacy controls for optional AI access.

PaddockJS
2026

JavaScript · PixiJS

- Built a reusable JavaScript/PixiJS racing simulator with composable browser views and a shared headless reset/step API.
- Separated grid browsing from simulation state and exposed configurable rules and policy-evaluation interfaces. The package powers the project race on my portfolio.

Who's On Repeat
2026

Python · SQLite · JavaScript

- Designed and implemented a multiplayer music game as a solo course project, with a Python backend, SQLite transactions and server-timed scoring.
- Separated room and game rules, protected answers until reveal, and integrated Spotify alongside an offline demo.

COMMUNITY & LEADERSHIP

OpenAI Codex Ambassador Feb 2026 - Present

Run hands-on sessions, share practical AI-assisted development workflows and create learning resources for the Codex developer community.

Club Lead | GDG on Campus IE University Sep 2025 - May 2026

Previously Officer / Tech Guru (Sep 2024 - Sep 2025); contributed to technical workshops and community projects.

Bot Battle · Game Environment & Judging Mar - Apr 2025

Created the modular game environment, helped coordinate bot simulations and judged final presentations in a two-week AI hackathon with seven presenting teams.

Conducted machine-learning workshops to support participating teams.

TECHNICAL SKILLS

Programming: Python, Swift, JavaScript, SQL, Java, C++.

Native applications: SwiftUI, AppKit, SQLite, macOS Accessibility, Android.

Backend & systems: FastAPI, Django, PostgreSQL, HTTP / WebSockets, TCP / UDP, Docker, Git, Automated testing.

AI & machine learning: PyTorch, vLLM, OpenCV, NumPy, Computer vision, Synthetic data, MLX, LLM integration.

Robotics: ROS 2, OptiTrack, Robot perception, Telemetry, Calibration.

Courses: LangChain Academy: Foundation: Introduction to LangChain - Python (Apr 2026); Anthropic: Introduction to Agent Skills (Mar 2026); Anthropic: Claude Code in Action (Mar 2026); Amazon Web Services: AWS Educate Getting Started with Compute (Oct 2025).

Languages: Italian - native; English - native; Spanish - intermediate; French - basic.
